Portfolio: ajayahirvar-portfolio.netlify.app

PROFESSIONAL SUMMARY

Electronics and Telecommunication Engineering undergraduate (B.Tech, Class of 2027) with a strong foundation in data structures, algorithms, object-oriented design, and Python programming. Experienced in building logic-driven applications, validating input data, and writing clean, maintainable code. Certified in Python and scientific computing through CS50 and freeCodeCamp coursework. Seeking an SDE Intern role to design and build scalable software solutions in a fast-paced, collaborative engineering environment.

TECHNICAL SKILLS

- Programming Languages: Python (core logic, string/data manipulation, input validation, OOP fundamentals)
- Computer Science Fundamentals: Data Structures, Algorithms, Object-Oriented Design, Complexity Analysis, Operating Systems concepts
- Tools & Platforms: Git/GitHub, Visual Studio Code, MS Excel (data handling), MS Word (technical documentation)
- Core Strengths: Algorithmic Problem Solving, Debugging, Analytical Thinking, Technical Documentation

PROJECTS

Arithmetic Formatter - Python

- Designed and implemented a Python application applying conditional logic and input-validation algorithms to process arithmetic expressions accurately
- Engineered case-insensitive and whitespace-insensitive string-parsing logic to improve input robustness and reduce runtime errors

Logic-Based Python Programs - Python

- Built a set of foundational programs applying control-flow and conditional-logic structures to solve well-defined computational problems
- Practiced structuring, testing, and debugging small-scale programs to strengthen core algorithmic problem-solving skills

EDUCATION

Bachelor of Technology (B.Tech), Electronics and Telecommunication Engineering

Jabalpur Engineering College, Jabalpur, India

Expected Graduation: 2027

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Fundamentals

CERTIFICATIONS & COURSEWORK

- CS50: Introduction to Python Programming - Harvard University (edX)
- Scientific Computing with Python - freeCodeCamp
- MATLAB for Engineering Applications
- Foundational Python Programming

CORE COMPETENCIES

- Professional Communication, Team Collaboration, Effective Time Management, Meticulous Attention to Detail, Rapid Learning Capability, Analytical Thinking

LANGUAGES

- Hindi (Native Fluency), English (Professional Working Proficiency)
